MINI ROOF CUTTER

This GRIZZLY mini cutter has a GX200 Honda engine and is perfect for tight spots. The handle is adjustable and can fold down to allow cutting under structures that have 18" clearance.

The floating blade guard can be raised for inspecting and changing the blade.

The mini cutter is very light, making it ideal for small crews, repair crews and small areas. This cutter can be lifted to the roof using a ladder hoist as long as it is held securely of course.

WEIGHT : 165 LBS
