

# PRODUCT SHEET

## RUBBERIZED ASPHALT KETTLE

Fast, consistent melting with stable, oil-jacketed heat for reliable hot-pour performance.

### **FASTER MELTING**

Gets asphalt to working temperature quickly so crews stay productive.

### **CONSISTENT HEAT**

Oil-jacketed system prevents scorching and keeps pour quality stable.

### **SAFER OPERATION**

Better temperature control reduces risk of flare-ups and material waste.

# RUBBERIZED ASPHALT KETTLES

Engineered for demanding rooftop conditions, the diesel fired oil-jacketed melting kettle with gravity pour delivery system delivers fast, uniform heating with its oil-jacketed design, ensuring consistent material flow and reduced downtime. Built for safety and durability, it provides reliable temperature control, stable operation, and efficiency throughout the sealing and waterproofing application.

## SPECIFICATIONS

### ENGINE / POWER

- Hydraulically driven agitation
- 6 hp Kubota diesel engine
- Reciprocating, non-jamming full-sweep agitator

### BURNER / HEATING

- Diesel-fired
- Oil-jacketed melting kettle
- Gravity-pour delivery system

### AXLE / SUSPENSION

- Axle: Single
- Capacity: 5,200 lbs (3,182 kg)
- Tires: (2) 225/75/R1

## ADVANTAGES

- STABLE OIL-JACKETED HEAT
- HYDRAULIC AGITATION
- NON-JAMMING SWEEP AGITATOR
- DIESEL-POWERED SYSTEM
- INSULATED FIRING CHAMBER
- GRAVITY-POUR DELIVERY
- 10-GA STEEL CONSTRUCTION
- KUBOTA DIESEL ENGINE
- SINGLE-FUEL OPERATION

Capacity	Construction	Engine	Agitation	Delivery	Fuel	Axle Capacity	Tires	Applications
130 gal	10-ga steel, fully welded	6 hp Kubota diesel	Hydraulic	Gravity pour	Diesel (single source)	5,200 lbs	(2) 225/75/R15	Roofing, waterproofing, crack sealing
