

PRODUCT SHEET

DUAL COMPONENT ADHESIVE GUN

A heavy-duty adhesive gun delivering cleaner work, less downtime, and effortless handling on every roofing job

JOBSITE- TOUGH

Anodized, reinforced construction designed for real rooftop conditions. Stays reliable under dust, dirt, cold, heat, vibration, and impact.

SMOOTH OUTPUT

Stainless rods + sealed bearings prevent binding and give a steady, controlled bead with fewer clogs and almost no hand strain.

BATTERY POWERED

Uses standard 20V Li-ion battery commonly found on job sites. Zero new chargers or battery systems to manage.
