KER-DFTM0100DRPS_	TRAILER	100 GALLONS	1,414 LB (641 KG)	160"	56"	66"

KER-DFSM0030_

30 GAL DIRECT FIRED MELTER

The skid mounted 30 gallon melter is designed to be used with applicator pots and tools. The 30 gallon melters come equipped with a 2" gravity fed valve to dispense material into an applicator pot or pouring bucket. Each unit is hand agitated and comes with a material thermometer, lifting handles, double headed 160,000 BTU burner and propane hose with regulator.

KER-DFSM0060_

60 GAL DIRECT FIRED MELTER

The skid mounted 60-gallon melter is designed to be used with applicator pots and tools. Equipped with a 5.5hp engine powers the agitation and a double headed 160,000 BTU propane burner to provide fast heat up times. The unit is also equipped with a material thermometer, propane hose with regulator and 2" draw off valve. Designed to fit into service elevators. Available with casters for ease of movement on job site.

Available on caster and trailer

KER-DFTM0100DRPS_

100 GAL DIRECT FIRED MELTER

The largest direct fired kettle available holds a capacity for 100 gallons of rubberized asphalt. This unit allows the contractor to increase the amount of material being melted without upgrading to a larger oil jacketed kettle. This unit comes with a single 3,500 lb axle with electric brakes and breakaway kit. Material is heated with a 300,000 BTU propane burner and comes with a single propane bottle holder.

BEST FOR HIGH-VOLUME JOBS

OIL JACKETED MELTING KETTLES

Propane Fired or Diesel Fired – Gravity Pour Delivery System

Oil jacketed melting kettles are designed for large-scale waterproofing projects. The oil jacketed system provides uniform heat distribution, prevents material scorching, and ensures precise temperature control for consistent application.

SELECT THE RIGHT CAPACITY

MODELS	MATERIAL VAT	BEST FOR
KER-OJTW0130D__S_	130 GAL (492 L)	MEDIUM CREWS, DAILY SEALING
KER-OJTW0230D__S_	230 GAL (870 L)	HIGH-PRODUCTION CREWS
KER-OJTW0370D__S_	370 GAL (1,399 L)	MUNICIPAL & LARGE

WHICH FUEL IS RIGHT FOR YOUR CREW?

PROPANE	DIESEL
<ul style="list-style-type: none">• Faster warm-up• Lighter unit• Ideal for most crews	<ul style="list-style-type: none">• Lower fuel consumption• Better for long operating days• Preferred by municipalities
