

GRIZZLY™

EQUIPMENT

511 000 250 LBS LADDER

The **GRIZZLY** 250 LBS capacity ladder hoist is the ladder hoist of choice available in a 28' or 44' version with either GX160 Honda engine. The base section is reinforced every 4 feet for added lateral stability and the rungs are offset to give it more rigidity. The platform has nylon wheels to minimize wear on the aluminum. The sections are connected by a single splice plate per side to simplify its use. The power unit has a clutch and a brake system that is easy to adjust.

The ladder hoist comes complete with a power unit, platform, top bracket, pulley and sections.

A **GRIZZLY** #511 100 telescopic support is included with the 44' ladders.

OPTIONS :

- Additional ladder sections
- Ladder support
- 250 lbs gravel bucket

WEIGHT :	28'	236 LBS
	44'	316 LBS including ladder support
